

# Equilibrium B1 Cool Mix<sup>®</sup>

## Vitamins, minerals and salt

- Broad Spectrum all in one Supplement
- Helps maintain general health and condition
- No additional vitamin, mineral or salt supplement needed
- Recommended for nervous, fizzy or excitable horses & ponies

### What is Equilibrium B1 Cool Mix<sup>®</sup>?

Equilibrium B1 Cool Mix is designed for nervous, anxious or highly strung horses and ponies. It is a broad spectrum supplement that contains balanced ratios of essential macro and trace minerals, vitamins and salt, but no protein, energy or fillers. Our unique formulation provides optimal support for utilization of nutrients for supporting hoof health, recovery from exercise, coat and overall condition. The B1 Cool Mix includes higher levels of Vitamin B1, Magnesium and Vitamin E than the Mineral Mix to support focus and attitude.

- Contains essential nutrients to support hooves, coat, body condition, recovery from work and optimal health
- One 22kg bag can last a regular horse for nearly 12 months
- Balanced and complete in a simple daily allowance
- Helps manage normal stress
- May improve focus and attitude

### Feeding Directions

Add to feed, split between two feeds where possible. Can also be fed as a loose lick to horses not in work.  
1 scoop = 70g

### Why Equilibrium B1 Cool Mix<sup>®</sup>?

- It is scientifically formulated for equine needs not particular pastures or geographical areas
- A complete product – no need for additional vitamins, minerals or salts
- May balance the diet where nutritional deficiencies and imbalances exist
- Recommended for all breeds, ages, sizes and workloads
- Suitable for horses with laminitis, cushing's, EMS, PSSM, and Insulin Resistance
- Contains essential nutrients for optimum growth and development of youngsters
- Recommended for ALL soil and pasture types, with specific allowances for grazing oxalate pastures

Manganese	980mg/kg
Iodine	4mg/kg
Iron	1500mg/kg
Cobalt	4mg/kg
Vitamin A	250000IU/kg
Vitamin E	1875IU/kg
Thiamine (B1)	1225IU/kg
Folic Acid	100IU/kg

## Testimonial

### Norton on Equilibrium B1 Cool Mix

"We have an ex polo pony at home who has always been very sensitive, anxious and flighty. He has always been jumpy to rug and catch and always seems to be on guard and unsure of people regardless of how much handling and ground work done with him. I put him on the B1 cool mix and within about 2 weeks he was like a different horse. He now follows us around like a pet dog, he can be rugged without being caught or fed and he is all round much easier to handle and friendlier and clearly less anxious. I would highly recommend it."
