

TAILING & DOCKING INFORMATION SHEET

PREVENTATIVE FLY CONTROL TREATMENT IS COMMON PRACTICE AT TAILING AND DOCKING TIME.

AHD Ltd has three fly control options to protect your lambs from tailing / docking through to weaning.

UNLOCK CYROMAZINE SPRAY-ON

Actives Ingredient: Cyromazine 60g/L

Withholding: Meat 21 days. Wool, Nil when used as a spot treatment.

Protection Period: 6 weeks as a crutch treatment

Dose: Apply between 5-10mls using a spray nozzle applicator over the crutch ensuring that sufficient product to cover the area to be protected is applied.

At 10ml 10L = 1,000 lambs. 20L = 2,000 lambs.

Cost per lamb 11 cents (based on 20L drum)

10L \$159.00. 20L \$225.50

UNLOCK POUR-ON

Actives Ingredient: Diflubenzuron 20g/L and Deltamethrin 10g/L

Withholding: Meat 7 days. Wool, Nil when used as a spot treatment.

Protection Period: 14 weeks fly, with a rapid knockdown on existing mag-gots and lice.

Dose: 11ml as an arc applied with the Unlock T Bar applicator.

At 11ml 5L = 454 lambs, 20L = 1,818 lambs.

Cost per lamb 32 cents (based on 20L drum)

5L \$308.60. 20L \$543.50. T Bar applicator \$49.00

UNLOCK CYROMAZINE LIQUID

Actives Ingredient: Cyromazine 500g/L

Withholding: Meat 7 days. Wool 60 days.

Protection Period: 6-8 weeks fly protection. Note: As a saturation dip coverage is 12 weeks.

Dose: Mix at a rate of 2L to 1,000L of water and apply over the crutch area ensuring enough is applied so the region is wet to the skin.

at 60ml coverage 2L.
